## Sulfur Guard<sup>TM</sup> Fungicide 16 oz.

Fungicide for disease and mite control.

**On fruit and nut trees, controls** scab, powdery mildew, brown rot, leaf spot, rust mite, thrips, sooty mold, silver mite, red spider mite, flat mite, two-spotted mite and other eriophyid mites.

**On canes and vines, controls** powdery mildew.

**On vegetable crops, controls** leaf spot, rust, two-spotted mite, brown mite, powdery mildew, Pacific mite, Atlantic mite, petrobria mite and tomato russet mite.

**On flowers, ornamentals and turf, controls** powdery mildew, leaf spot, black spot, botrytis blight, red spider mite and two-spotted mite.

From fruit trees, canes and vines to vegetables, flowers, ornamentals and turf, the strong adhesive properties of Sulfur Guard act as a sticker on the plant.

Apply Sulfur Guard at 1/4 oz. to 4 oz. per gallon of water for most crops. Sulfur Guard can be used on virtually all types of turf, including bentgrass, bluegrass, ryegrass and fescue.
